

# Homepage

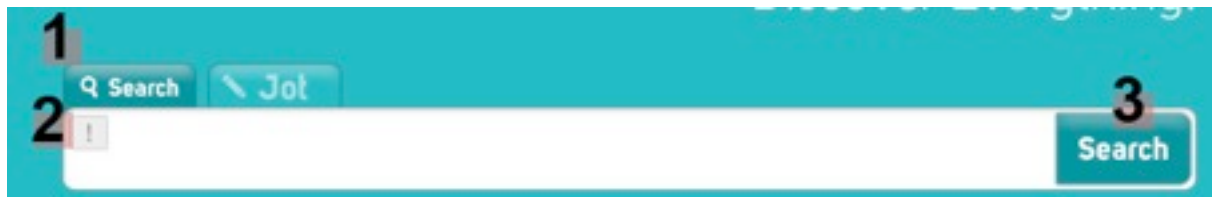

The homepage is a light version of the login page.

Default content is placed in the tag cloud, favorites and nests

When a user tries publishing a note while not logged-in yet, the registration pop-up appears.

Content shown on this page and not listed is the technical requirements will be implemented later.

# Magic Box

## General

### 1 - Tabs

The modes are now accessible through tabs.  
Tabs change color on mouseover  
Search mode is the default mode.

See All Notifications

### 1- Cloud

Just a visual reminder

### 2- Notifications

User is notified on :

- Message
- Mention
- Relay
- Reply
- Thumb up/down
- Ignore
- Favorite
- Add

The notifications appear under the 'Mentions', e.g., 'New relays 9'

Clicking on it brings the timeline with the related posts

After clicked, the notification disappears

Direct message and mentions notifications are always visible, bolded when updated

The 'See All notifications' button shows the complete list of notifications (archives)
